

Annexure-I

Format for Submission of Report on DIKSHA Energised Textbook (ETB)

Student Name: ABU SAHED ARAFATH

D.El.Ed. Semester: 2nd Semester

Roll No./Registration No.: 14D212502293

Name of TEI: DIET, Sribhumi

Regarding the DIKSHA ETB:

Class/Grade: III & IV

Medium: English

Subject: EVS & English

Name of the Books: BLOSSOM-I, We and our environment-IV,

Chapter No.	Chapter Name	Name of the e-content(s)	Brief Description of the Content
Chapter No. 1	Chapter-2 Our School	Environment around Us Part-I for class III	The lesson describes the annual School Week celebration, where students actively participate in games, sports, cultural programmes, quizzes, debates, and other enjoyable activities. It highlights the importance of teamwork, discipline, cooperation, responsibility, and fair play. Through these events, students develop confidence, leadership qualities, and a healthy competitive spirit. Teachers encourage every student to participate enthusiastically, respect others, follow rules, and solve problems peacefully, making the celebration a joyful and meaningful learning experience.
Chapter No. 2	Chapter-1 Our Family	Environment around Us Part-I for class III	The lesson explains the importance of family and the roles of its members in building a happy and caring home. It shows how family members live together, care for one another, share responsibilities, and support each other in daily life. The lesson highlights the values of love, respect, kindness, cooperation, and unity. It also teaches children to appreciate their family members, help with household tasks, maintain good relationships, and understand that a strong family is built on trust, understanding, and mutual support.

Chapter No. 3	Our Festivals	We and our environment(class 4)	The lesson introduces the different festivals celebrated in India and highlights their cultural and social significance. It explains how festivals bring happiness, strengthen relationships, and unite people from different communities. The lesson encourages students to respect all cultures and religions, appreciate the rich diversity of the country, and participate in celebrations with joy and enthusiasm. It promotes the values of unity, harmony, mutual respect, tolerance, and cultural appreciation, helping children understand the importance of living together peacefully in a diverse society.
Chapter No. 4	Animals around Us	We and our environment(class 4)	The lesson introduces various animals found around us and explains their habitats, body features, food habits, and ways of living. It helps children understand how different animals are adapted to their surroundings and how these adaptations help them survive. The lesson also highlights the of biodiversity and the role animals play in maintaining ecological balance. It encourages students to treat animals with kindness, care for their well-being, protect wildlife, and conserve nature for a better and healthier environment.
Chapter No. 5	Chapter-2 The Monkey and the crocodile	Blossom-I A textbook for class III	The lesson explains the importance of food and its different sources from plants and animals. It introduces the concept of a balanced diet and discusses healthy eating habits that are essential for maintaining good health. The lesson teaches that nutritious food provides energy, supports growth and development, and helps protect the body from diseases. It also encourages students to avoid wasting food, maintain proper hygiene while eating, and make healthimportancehy food choices for a fit and active life.
